Community Sport Hubs

CSH's are essentially a 'home for sport and Physical Activity'. Based across local facilities such as sports centres, community centres, the natural environment and/or schools, they bring people together to work and develop sport locally.

They will also provide information, support, and advice on a wide range of sports and physical activities to make it easier for local people to get involved and engage in a more active and healthier lifestyle. The specifics of each CSH and what it offers will vary according to local need and local resource.

How to Apply

Welcome to OneRen's Sports and Health Services Membership System! The purpose of this online system is to enable your club to manage its coaches' qualifications and credentials, as well as administering your club's accreditation process. This will ensure that all coaches within your organization have the minimum operating requirements to deliver in Renfrewshire.

We hope that the online system will be a benefit to your club and also supports the CSH's in terms of governance and monitoring/reporting. Before being issued with a login, contact Sport's Services to discuss the application process for CSH membership.

Follow the three step process for CSH application:

Following Sports and Health Services working group meetings new applicant organisations will be advised and directed as appropriate to a designated CSH. Each respective CSH will be notified of completed membership applications and a formal invitation to attend a future meeting will follow.

Clubs & Communities Framework

The Clubs and Communities Framework is designed to help build capability and capacity of organisations in that environment by providing a common reference point to improve our sporting system and deliver the priorities for improvement in Scotland's sporting system.

To help make that happen, we all need to work together. By supporting and strengthening links between schools, clubs and performance sport, we create pathways for people all over Scotland to participate and progress in the sport of their choice.
